

It's that time again!

The planning and layout for the 11th Edition of Lincoln's ElderCare Resource Handbook has begun.

We are excited to announce color advertisements are now available to help enhance your organization's message!

On the next page, you can choose your Handbook advertisement option. Please let us know your preference(s) on ad placement and we will do our best to accommodate. The business information will need to be completed and returned by email to Info@LincolnHandbook.com. We are expecting a large amount of advertisers this year, so these will be prioritized on a first come, first served basis.

The online Handbook has become increasingly popular over the past few editions. For a minimal investment, you will again be able to link your organization's website at LincolnHandbook.com.

We are planning to distribute 2,500+ Handbooks to Social Workers, Physicians, Nurses, Human Resource Professionals, Communities & Facilities and hundreds of other individuals who are looking for answers. Each edition is used by all of the above, and in many cases, on a daily basis! Advertisers frequently tell us that this is the best advertising investment they make because of the excellent exposure the Handbook gives them.

Your advertising dollars benefit your organization and provide a much needed tool to our community. Thank you in advance for supporting this valuable resource! If you have any suggestions/concerns regarding the Handbook, please let us know.

We look forward to making the 11th Edition of the Lincoln Area ElderCare Resource Handbook the best yet!

Sincerely,
Care Consultants for the Aging
